S. Yemen sentences former president to death

ADEN (R) - A South Yemeni court on Saturday sentenced deposed president Ali Nasser Mohammad to death in a mass trial of 107 of his supporters. All the defendants, including Nasser and 43 of his followers who fled to North Yemen after bloody clashes erupted in January 1986 between factions of the ruling Marxist party, were charged with treason. The bench sentenced to death by firing squad a total of 19 fugitives and 10 defendants who appeared in court, including former navy chief Abdullah Ahmad Al Husseini and Mubarak Salem, who was in charge of Nasser's personal safety. Other defendants drew jail terms that varied from 15 years' imprisonment to five. Five fugitives were amnestied, six people who appeared in court were found innocent while charges against a former official were dropped after he died in jail.

King sends cable of sympathy to Egypt

AMMAN (J.T.) — His Majesty King Hussein on Saturday sent a cable to Egyptian President Hosni Mubarak expressing deep sympathy over the death of 52 schoolchildren in an accident that took place in Cairo on Friday. The ेटिप ित्तं accident involved a train which hit a bus overcrowded with children taking them home from an excursion. In his cable, the King expressed his deep condolences and of the Jordanian government and people to the president and the families of the victims involved in the accident (See page 2).

Syrian soldier killed in N. Lebanon

TRIPOLI (R) - A Syrian soldier was found shot dead in a Syriancontrolled area of north Lebanon on Saturday, the fourth such killing in a month. Police said the ... body was discovered in the tiny village of Bterram, 60 kilometres north of Beirut. They had no further details and Syrian officials refused to comment.

er in list Tunis court upholds death sentence

TUNIS (R) - The Tunisian supreme court of appeal on Saturday upheld a death sentence on a Muslim fundamentalist leader convicted of treason last month. It confirmed hard labour sentences of between life and five years imposed on 12 other militants by the state security court on Nov. 28. President Zine Al Abidine Ibn Ali has the power to commute the death sentence passed on Ali Laaridh, a leader of the banned Islamic Tendency Movement.

Shultz in Denmark

COPENHAGEN (R) — U.S. Secretary of State George Shultz began a two-day visit to Denmark and Norway on Saturday in-tended to highlight the importance of NATO's northern flank. He landed first in Copenhagen, his first trip to Denmark since becoming secretary of state in 1982. Mr. Shultz arrived from Brussels, where he was attending annual talks between U.S. officials and the European Community. On Friday, he briefed NATO members in the Belgian capital on the summit meeting between President Ronald Reagan and Soviet leader Mikhail Gorbachev and on details of the treaty scrapping medium-range nuclear missiles signed by the two leaders.

Search continues for KAL plane

BANGKOK (AP) — U.S. navy planes resumed their search for a missing South Korean airliner Saturday after photographing what appeared to be seat cushions and life preservers floating in the Andaman Sea south of Burma, a U.S. embassy spokesman said. These and numerous smaller objects were photographed Friday near India's Narcondam Island, about 440 kilometres southwest of the Burmese capital of Rangoon, embassy spokesman Ross Petzing said.

Murphy: U.S.-Soviet summit ditional withdrawal from all the territories occupied since the

failed to resolve differences

over Gulf

WASHINGTON (Agencies) A top U.S. official has said the superpower summit has not resolved differences over the Gulf war and he criticised Moscow for its refusal to back a global arms embargo against Iran at the United Nations.

Assistant Secretary of State Richard Murphy said Friday the Washington summit talks with Soviet leader Mikhail Gorbachev and his aides had been "inconclusive on the Gulf war, with the Soviets sticking to previous posi-

"We believe these Soviet positions reflect continuing Soviet efforts to play this issue both ways by avoiding actions in the U.N. which would sour Soviet-Iranian relations while doing just enough to blunt the increasing criticism of the Arab states directed at Moscow," he told a conference organised by Washington's Middle East Insti-

The United States has been pressing the Soviet Union to back an arms embargo against Iran to force acceptance of an earlier U.N. Security Council resolution demanding a ceasefire in the seven-year-old Iran-Iraq war. Mr. Gorbachev made it clear at

a news conference on Thursday that he did not believe the time had come for the council to consider such a step.

"I think we have not yet ex-hausted the potential of the first resolution," he said. That action Resolution 598 —was adopted unanimously by the council on

But Mr. Murphy said an en-forcement resolution was long overdue. Iran is "again massing forces

for a major winter offensive, to be launched as early as next month," he said without giving further details.

Mr. Murphy, the administra-tion's top policy official on the Middle East, called on Moscow to follow up on its stated desire to see the United Nations play a more central role in international

"This argues for joining together, now, to enforce the council's mandate and help restore a measure of peace to this critical area of the world, where

King, beginning Gulf visit, meets Kuwaiti and Bahraini leaders

Majesty King Hussein on Saturday embarked on a five-nation Chamberlain Prince Ra'd Ibn Arab Gulf tour to follow up on last month's Arab summit meeting in Amman.

The King's first stop was Kuwait where he met with the emir, Sheikh Jaber Al Ahmad Al Sabah, and senior officials. The Jordan News Agency, Pet-

ra, said the talks were within the framework of continued consultations on important Arab issues in the wake of the Amman summit meeting and its positive outcome. Petra said the talks between the King and Sheikh Jaber covered the developments in the

The talks were attended by the Jordanian delegation accompanying King Hussein on his current

Court Marwan Al Qasem, Chief Zaid and Armed Forces Commander-in-Chief Field Marshal Sharif Zaid Ibn Shaker as well as the commander of the Royal Jordanian Air Force.

Following his brief visit to Kuwait, the King and his delegation flew to Bahrain and held talks with the emir. Sheikh Issa Ibn Salman Al Khalifa.

The King was expected to spend Saturday night in Bahrain and leave for Oman, the United Arab Emirates and Qatar on Sunday, according to diplomatic Iran-Iraq war, current Arab sources here.

affairs and Kuwaiti-Jordanian re-The King's visit to the Gulf countries, all members of the Gulf Cooperation Council, comes in advance of the Dec. 26 summit of the six-nation GCC in Riyadh. tour. It included Prime Minister The GCC summit is expected

Diplomatic sources said the King's talks with the Gulf leaders were also expected to cover the results of the superpower summit in Washington earlier this week.

King Hussein told Cairo's Al Ahram newspaper that the United States and the Soviet Union should do more to implement U.N. Security Council Resolution 598 and end the Gulf con-

He also urged a collective Arab stand against Iran so that it would realise it was not "facing one Arab country but the whole Arab Nation.

Upon his departure from Amman, King Hussein was seen off by His Royal Highness Crown Prince Hassan, Cabinet members and senior officials. Prince Hassan was sworn in as Regent during the King's absence.

Mubarak offers to visit Syria and meet Assad

ABU DHABI (R) — Egyptian President Hosni Mubarak said in an interview published on Saturday that he had offered to visit Syria and meet President Hafez Al Assad.

"I have offered to go to Syria and meet President Assad, but I have not yet had a response,' Mr. Mubarak told the Gulf daily Al Ittihad. "We believe in dialogue to solve differences and our door is still open.' Mr. Mubarak said Libyan lead-

er Muammar Oadhafi had offered to meet him but, like the Syrian leader, wanted Egypt first to abrogate its 1979 Camp David treaty with Israel.

Mr. Mubarak defended the treaty and said to abrogate it would be tantamount to declaring

"I tell our Syrian brothers that the Camp David accord is not against Palestinians nor does it violate the Arab Defence Char-. ter," he said.

Resistance says 5 SLA

men killed RASHAYA, Lebanon (Agencies) - Resistance fighters said Saturday they killed or wounded at least five Israeli-backed militiamen in a raid in South Lebanon on Saturday, less than 48 hours after claiming the killing of an Israeli navy officer.

The pro-Iranian Islamic Resistance said its men attacked a patrol of the South Lebanon Army (\$LA) militia northeast of the town of Bint Jbeil and inside an Israeli-declared "security

In a statement from eastern Lebanon's Bekaa Valley, the guerrilla coalition said more than five SLA militiamen were killed.

Mr. Mubarak said Egypt would not compromise on a square inch of Arab land nor would it negotiate on behalf of Palestinians.

"But to someone demanding that Egypt scrap the treaty and violate its commitment, I would ask: 'How will you benefit and how will we benefit." Egypt was committed to peace

but also to Arabs, Mr. Mubarak said. "I think we had better cooperate to resolve the problem and to regain rights for their

Libya criticised the states restoring ties with Egypt. Col. has repeatedly offered to pour money into Egypt's economy in return for abandoning the Camp David treaty.

"His condition was that I assure him, or even whisper to him, that I would abrogate Camp David, even after ten years," Mr. Mubarak said.

He accused Libya of trying to destabilise Egypt.

Masri holds talks with Pirzada AMMAN (J.T.) — Foreign

Minister Taher Al Masri conferred here Saturday with Sharifuddin Pirzada, secretary general of the Organisation of Islamic Conference (OIC), on arrangements for a meeting of OIC foreign ministers to be held in Amman in March next vear.

The foreign ministers of the 45-member OIC will hold their 17th meeting here to discuss issues of concern to the Islamic

WASHINGTON (Agencies) — President Ronald Reagan said Saturday there would be no treaty reducing superpower arsenals of long-range nuclear missiles if the Soviets "try to hold it hostage to restrictions" on his "Star Wars" defence programme.

In his weekly radio address, the president appeared to back away from his assertion Friday that U.S.-Soviet differences over "Star Wars," formally known as the strategic defence initiative (SDI), had been "resolved" at last week's summit.

"We made progress toward 50 per cent reductions in strategic nuclear arsenals" during three days of talks with Soviet leader Mikhail Gorbachev, the presi-

"This could be another historic achievement, provided the Soviets don't try to hold it hos-

tage to restrictions on SDI," he resents "a small step forward for said.

"When I met with General Secretary Gorbachev in Geneva in 1985 and in Reykjavik, Iceland, last year, he exerted every bit of pressure he could to try to get us to give up SDI," Mr. Reagan said.

"Building a defence against nuclear weapons is a moral as well as strategic imperative, and we will never give it up. The Soviets have persisted in efforts to limit our testing in this vital area, but providing a strategic defence is too important to restrict the promise it holds for future generations."

Representative Stephen

Solarz, who delivered the Demo-

cratic response to Mr. Reagan's

Senate approves sale of Stingers to Bahrain

WASHINGTON (R) — The Senate voted on Friday to allow the sale of Stinger anti-aircraft missiles to Bahrain but placed strict conditions on their use and security.

The action, taken by voice vote for seven years. on an amendment to a catchall government spending bill for fiscal 1988, reversed a Senate committee's decision last week to ban the sale of Stingers to Bahrain and other Gulf nations.

The Reagan administration. seeking to reward Bahrain for its support of U.S. forces operating in the Gulf, had lobbied hard for the ban to be reversed.

A compromise was worked out between Sen. Dennis Deconcini, an Arizona Democrat who sponsored the ban, and senators who believed Bahrain should receive the \$7 million in Stingers, a portable, shoulder-fired ground-to-air

Sen. Deconcini feared the missiles could find their way into the hands of Middle East terrorists and be used against U.S. aircraft in the volatile Gulf area, where Iran and Iraq have been fighting

"We are taking a high risk because of our strong friendship with the nation and because of their defence needs," Sen. Deconcini said.

But he said it was important to note the bans on selling Stingers to other Gulf nations, like Oman and the United Arab Emirates, was still attached to the spending

The compromise places strict security measures on the missiles, including separate storage for the launcher and the missile, U.S. inspections of storage sites and a prohibition on Bahrain transferring the weapons to a third

The president must certify to Congress that the missiles were needed "to counter an immediate

The missiles would be sold to Bahrain for a period of 18 months, during which time the administration is to propose an alternative air defence system for the Bahrainis.

All unused Stingers must be returned at that time. Sen. John Glenn, an Ohio Democrat, said he was pleased with the compromise. "Bahrain

has been a friend to our country. "Bahrain has provided basing, berthing facilities for our ships since 1949 at minimal cost. We have unlimited access to air facilities. We have unlimited access to

In another amendment adopted earlier by the Senate on the same bill, senators voted to urge the administration to ask nations who benefit from U.S. naval protection in the Gulf to share a portion of the cost of

port facilities," he said.

keeping the armada there. "The president of the United States should enter into negotiations with such countries to achieve a pro-rata share of these burdens," the non-binding re-solution said.

Congressman says Deng's son-in-law is involved in Silkworm sales to Iran

WASHINGTON (R) - AChinese government agency run by Deng Xiaoping's son-in-law is shipping arms to Iran despite repeated U.S. appeals to stop, a leading democratic congressman charged on Friday.

Les Aspin, chairman of the House of Representative's Armed Services Committee, said two-thirds of Iran's military supplies originate in China, including Silkworm surface-to-surface missiles that Tehran has used in its seven-year war with Iraq.

"Despite an infinite number of appeals from the United States ... the Chinese deliveries continue," the Wisconsin Democrat told an international conference on the

Mr. Aspin said the sales "are made by a division of the Chinese government that is run by Deng Xiaoping's son-in-law.

The sales are therefore not some oversight — some hole in the giant bureaucracy of China's vast government." he said. adding the Chinese leader's sonin-law was possibly engaged in "empire building" in continuing the sales.

Mr. Aspin did not name the son-in-law but congressional sources identified him as Hei Ping and said the government agency was the export-import division. In Peking, the Chinese Foreign Ministry on Saturday dismissed as "sheer fabrication" the statement

by Mr. Aspin.

that it does not sell arms to Iran, to Iran. Iraq's Gulf war enemy, and said it was taking steps to prevent them reaching it through third parties. Asked about Mr. Aspin's statement, a Foreign Ministry spokesman said it was "sheer fabrica-

China has been offended by several recent statements and resolutions originating in the U.S. Congress, notably accusing China of human rights abuses in Tibet.

Vice Foreign Minister Zhu Qizhen told U.S. Ambassador Winston Lord on Thursday that such a non-binding resolution adopted by the Senate on Dec. 3 "distorts the facts, slanders and vilifies the Chinese government and people and grossly interferes in China's internal affairs."

U.S. intelligence sources have of the surface-to-surface missiles

The Reagan administration has protested China's sale of Silkworm missiles to Iran several times and decided to delay future transfers of high-technology items to China.

The Senate has asked the White House to review whether a proposed \$528-million, high-technology sale to China should pro-

Iranian Silkworm missiles have hit several targets in the Gulf in recent months, including Kuwaiti oil installations. In the space of a week in October, Silkworms hit a U.S.-owned tanker and another vessel flying the American flag.

The administration has placed 11 Kuwaiti tankers under the protection of the U.S. flag and American warships are escorting reported that Peking sold 30 to 35 convoys up and down the

Egyptian defence minister to visit Kuwait

CAIRO (R) — Egyptian Defence Minister Field Marshal Abdul Halim Abu Ghazala will pay an official visit on Monday to Kuwait, which Egypt has pledged to help defend itself, ministry sources said.

The two-day visit comes at the invitation of Kuwaiti Defence Minister Sheikh Salem Al Sabah to discuss bilateral cooperation, the sources said.

Kuwait was one of nine Arab states which last month resumed full diplomatic ties with Egypt after a break of eight years over its 1979 separate peace treaty with Israel.

The Arab move followed growing concern among Gulf states over the Iran-Iraq war.

2 Knesset members urge court to expel Awad

TEL AVIV (Agencies) — Two right-wing Israeli politicians petitioned the high court to force Prime Minister Yitzhak Shamir to deport Palestinian-American activist Mubarak Awad, saying his activities "threatened national security," the Itim news agency

The petition by Guela Cohen and Yuval Neman, who represent the nationalist Tehiya Party in the Knesset (parliament), charged that U.S. pressure led by American Ambassador Thomas Pickering is preventing Shamir from deporting Mr. Awad, Itim said.

Mr. Awad, a 44-year-old Palestine-born U.S. citizen, heads the Palestinian Centre for the Study of Non-Violence in Jerusalem. Israel ordered him to leave the

country by Nov. 20 for calling on Palestinians to resist Israeli occupation by non-violent means, but his deportation was postponed after the U.S. government put pressure on Israel to allow him to stay.

Meanwhile U.S. State Department spokeswoman Phyllis Oakley urged that a senior editor with the Palestine Press Service who was detained by Israeli authorities on Dec. 8 be accorded "due judicial process."

"While I don't have all the details of this situation." she told a questioner, "we do understand that late Tuesday night Radwan Abu Ayyash, a senior editor with the Palestine Press Service was placed under administrative detention. We strongly support the principle of a free press and hope that Mr. Abu Ayyash will be accorded due judicial process."

52 children die in Cairo bus-train crash

CAIRO (Agencies) — At least 52 children were killed and more than 80 injured when a train smashed into a crowded school bus near Cairo, doctors said.

It happened at dusk when the bus driver tried to take a short cut across the railway line at the village of Kafr Al Shurafa, about 25 kilometres north east of Cairo, police said. "We saw the train coming like

one voice," said Rashid Rashed Abdul Halim, a school messenger who was sitting beside the driver in the bus. "We said 'look out, look out"

EC-Israel trade accord misses Christmas deadline

Israeli exporters to benefit from the lucrative Christmas season, EC sources said on Friday.

The formal signing of the accord has been delayed while the Community presses separate demands over Palestinian farm exports from the Israeli-occupied West Bank and Gaza Strip.

It wants those exports to go direct to Europe without being handled by Israeli state marketing bodies.
The EC's Executive Commis-

sion has worked out a compromise with Israel on that issue, and although Britain and Greece still have some doubts, a commission spokeswoman said she believed the deal would be agreed by the 12 member states next week.

BRUSSELS (R) - The Euro- trade accord to be signed, but pean Community is close to sign- almost certainly too late for it to ing a trade accord with Israel, but be sent for ratification to the any deal will come too late for European Parliament in time for Christmas exports.

> Israel has protested against what it considers an unfair link between the Palestinian issue and the trade deal, which will cut EC tariffs for Israeli exports of fruit. vegetables and out flowers.

Under the compromise deal, Palestinian direct sales to Europe will be overseen by an Israeli body made up of officials from the Defence, Foreign Affairs and Agriculture ministries.

We are confident that the text will secure the freedom of Palestinian exporters," an EC spokeswoman told reporters.

Britain and Greece have so far blocked the deal because they are worried that Israel will still effec-That will clear the way for the tively control Palestinian exports.

Arab conference on cord philosophy opens today

opens today at the University of Jordan under the patronage of His Royal Highness Crown Prince Hassan.

Delegates from various Arab countries will take part in the four-day meeting to discuss aspects of philosophy, such as imported ideology in relation to Arab and Islamic philosophy, according to Ahmad Madi, deputy dean of the Faculty of Arts at the University of Jordan. Dr. Madi, who is also chairman

AMMAN (Petra) — The Second of a committee preparing for the conference, said that the delegates will tackle philosophical issues, 20th century schools of philosophy and the formation of an Arab philosophy society.

> The meeting is organised by the University of Jordan, in cooperation with the Arab League centre for studies on unity among Arab countries, Dr. Madi noted.

He said that the First Arab Conference on Philosophy was held in 1983 and focussed on the

Rawabdeh turns new community centre over to GUVS to operate

AMMAN (Petra) — The Greater Amman Municipality on Saturday turned over a new community centre in the eastern district of Marka to the General Union of Voluntary Societies (GUVS) to operate it. The move came through an agreement signed by Greater Amman Mayor Abdul Ra'ouf Al Rawabdeh and Fakhri Bilbeisi, chairman of the GUVS council in the Amman area.

The centre is surrounded by a public garden and comprises a community hall, a children's theatre, a library, a nursery school and a vocational centre for women, offering training in dressmaking, typing and weaving and knitting.

The Amman Municipality has built two other centres of this kind, at Hashimit Janoubi and Jabal Nasser, and turned them over to GUVS and the General Union of Jordanian Women. Speaking at the signing cere-

mony, Mr. Rawabdeh said that the centres were turned over to GUVS and other voluntary societies because these organisations can ensure that the centres contribute to the development of local communities. Mr. Bilbeisi, who also addressed the ceremony, said that GUVS was exerting great efforts towards the development of local communi-

Murphy: Gulf differences remain

(Continued from page 1)

tensions are rising," he said. He said the Soviet position at the summit talks "did not develop beyond contentions that Iran deserves more time, that voluntary compliance by Iran with 598 remains possible, and that a 'real' force should be established by the U.N. to implement 598."

Moscow has urged the creation of a U.N. naval presence in the Gulf on the grounds that U.S. and allied navies in the area are the cause of tension.

Michael Armacost, the number three man in the State Department, suggested later on Friday that the Soviet Union might finally agree to discuss an enforcement resolution at the United

Nations next week. "My overall sense is that perhaps they are ready to commence those discussions but the test will come of that next week up in New York," he told reporters.

State Department spokeswoman Phyllis Oakley said on Friday that a report to the Security Council by Secretary General Javier Perez de Cuellar on Thursday had "reinforced" the U.S. view on the need for a second

Mr. Perez de Cuellar told the council he had concluded that a "fresh and resolute impulse" is needed, Oakley said. She said the Soviet Union, chairman this month of the Security Council, would discuss the next step with council members beginning next

"We will also be consulting with other members of the council. We hope that as a result of impulse," she said.

these discussions, rapid progress can be made on an enforcement resolution," Oakley said.

Oakley declined to comment on or draw conclusions from remarks made by Mr. Gorbachev during his Washington news con-

"Obviously the issue of the Gulf activity at the U.N. was discussed at the summit," Oakley said. "I think that the centre of focus of attention now turns to New York and the activities at the Security Council."

Resolution 598, which demands an immediate end to the Iran-Iraq war, was unanimously adopted by the Security Council on July 20. Since then, Mr. Perez de Cuellar has held several rounds of consultations with Iranian and Iraqi officials -- including a personal trip to Tehran and Baghdad - in an effort to bring about implementation of the resolution. While Iraq has said it will abide by the resolution, provided Iran does, Iranian officials

have refused to accept it. "We've pointed out often enough that the U.N. process sometimes moves slowly; it involves many nations, a lot of consultation, a lot of discussion," Oakley

reminded reporters. The U.S. view that it is time and has been for weeks - "to go to the second resolution" is clearly known, the deputy spokes-woman emphasised. "We welcome this report of the secretary general, that he now sees that he's at the end of his mediation effort with the parties and that it is time to give, as he said, a fresh

40 rescued from blazing tanker

(Continued from page 1) The Pivot had been attacked

about 15 kilometres south of Iran-held Abu Musa Island as it headed towards the Strait of Hormuz en route to Indonesia with a load of Saudi Arabian oil, said the sources.

The Iranian frigate, carrying no name or number, blasted the Pivot with four or five shells after questioning its captain about his

voyage, shipping sources said. "The Iranian ship wished him a safe voyage, then opened fire 2 few minutes later," one source guoted Greek Captain Alexander

Kontogiorgos as saying. Shipping sources said the Chandler, at 8,140 tonnes one of the biggest U.S. warships in the Gulf, and the unmarked Iranian frigate were old sparring part-

The American destroyer could frequently be seen loitering in international waters off Dubai while the frigate was known to have attacked several merchant vessels, they said.

Reuter photographer Frederic Neema saw the two ships pass each other less than a mile apart off Dubai on Friday.

The Chandler is a much more lishing, and Desktop Productivity powerful ship. But, under its rules of engagement, can take no Ideal Systems is the latest addiaction against the frigate unless the Iranian ship attacks a vessel flying the American flag.

NRA, Canadian agency to conduct Jordanian-Iraqi joint committee joint oil exploration operations

Resources Authority (NRA) and Petro Canada next month will embark on joint seismological operations in the Al Risha region near the Iraqi border, as a part of Jordan's exploration for

The announcement was made by NRA Director-General Kamal Jureisat, who said that there were encouraging signs of oil finds, in the light of the recent discovery of gas reserves at Al Risha.

The Petro Canada International Agency for Cooperation (PCIAC) will bring in a seismological team to carry out the opera-tions, Mr. Jureisat said. He said that the joint work will be in implementation of a bilateral agreement signed by the two sides, under which Canada pledged to invest a total of \$19 million in helping Jordan find oil and to provide the NRA with the expertise needed in for oil

talks to focus on expanding trade

AMMAN (J.T.) — Jordan and Iraq on Saturday began consultations here to prepare for the Joint Jordanian-Iraqi Higher Committee meeting which is due to open in Amman on Monday.

The Jordanian side to the preparatory meetings was led by the under secretary of the Ministry of Industry, Trade and Supply, Mr. Mohammad Saggaf, and the Iragi side by the under secretary of the Ministry of Industry and Trade. Mr. Usama Abdul Razzak.

The joint higher committee groups representatives of the ministries of industry and trade. transport, energy, and the central banks in the two countries. The committee will discuss means for promoting economic and trade ties during its two-day sessions. according to sources at the Ministry of Industry, Trade and Supply

Mr. Taha Yassin Ramadan, Iraqi deputy prime minister and member of the Revolutionary Command Council is due here on Monday to co-chair Iraq's team to the joint committee meeting with Prime Minister Zaid Rifai.

A bulletin issued by the Jordanian embassy in Baghdad in August revealed that the volume of trade between Jordan and Iraq was on the rise. It said that the increase in and diversification of goods exchanged by the two countries was in line with resolutions adopted by the Joint Jordanian-Iraqi Higher Committee in

their meetings in Baghdad last

According to the bulletin, Iraqi imports from Jordan include food concentrates, table eggs, phar-maceutical products, chemical detergents, wool and cotton cloth, ballpoint pens, plastic products, plastic covers and greenhouses for crops, electrical appliances, sanitary equipment, pottery, metal pipes, heaters, petrochemical products, irrigation pipes, pesticides, cigarettes, alcoholic beverages, table salt.

insulation materials, rock wool and bath taps.

In an interview with the local Arabic daily Sawt Al Shaab published Saturday, on the eve of the joint committee meetings, Minister of Industry, Trade and Supply Rajai Muasher said that relations between Iraq and Jordan were exemplary and serve the interests of both the Jordanian and Iraqi

Referring to the upcoming meeting, he said the two sides will discuss expansion of trade, particularly the export of Jordanian agricultural products to Iraq. The committee, he said, will discuss bilateral cooperation in industry and future investments in industrial schemes, as well as Iraq's imports of Jordanian phosphate and fertilisers.

Until the end of October 1987, the minister added. Jordan exported JD 40 million worth of products to Iraq.

He said that the committee will discuss cooperation in energy, as well as renew agreements on cooperation in other fields.

New civil service law offers more incentives, benefits to employees

AMMAN (Petra) — As of the beginning of 1988, a new civil service law will come into effect, covering nearly 100,000 employees working at government offices and public organisations in

Civil Service Commission CSC) Director-General Ibrahim Izzeddin said that the new law offers incentives and fringe benefits to the employees and replaces legislation that has been in operation since 1966.

Mr. Izzeddin said that the law will first be applied to all personnel employed by government departments and, gradually over a period of five years, it will be applied to public organisations.

According to the CSC directorgeneral the new law allows civil

has been done to them.

He said that the new law allows ministries and government departments to employ people to do part-time jobs, as well as full-time work, and also allows for wives or husbands to be given leave for accompanying their spouses on missions or study abroad, or for secondment to work in another country. In addition, employed women are entitled leave to take care of their children or of their

sick parents, Mr. Izzeddin noted. He said that the new system allows for more competition among employees for promotion and provides for more justice and fairness in treatment. For examservants access to annual reports ple, the government employee

about their performance, thus will from now on face a disciplingiving them the right to submit an any council to answer for wrongobjection if they feel an injustice doings and is entitled three warnings and penalties before dismissal. Mr. Izzeddin pointed out.

He said that any civil servant who believe that they are unfairly treated or dismissed from office without just reason can appeal to the High Court of Justice. But once a civil servant had been dismissed, he or she can return to office only by a Cabinet decision and after the lapse of three years after dismissal, Mr. Izzeddin

INF treaty in limbo

AFTER signing the treaty on intermediate range nuclear forces (INF) eliminating medium and shorter range missiles last Tuesday. President Ronald Reagan said that the historic agreement was not an "end in itself. but a beginning." The Soviet leader, Mr. Mikhail Gorbachev, said that the treaty was a "sapling" which could one day grow into an "oak of peace." Behind the two leaders' expressed optimism lies the daunting problem of reducing long-range strategic nuclear arms which, in fact, constitute the core of East-West nuclear deterrence, threatening world peace and security.

There are indications that the superpowers are willing to reach an accord on strategic arms reduction before Mr. Reagan visits Moscow next year. However, the INF treaty must first pass the ratification test in the U.S. Senate, before there could be any further movement towards reducing strategic arsenals. The treaty must be ratified by a two-thirds majority. There can be no doubt that the conservative senators, anti-INF treaty campaigners and tough administration policy advocates will necessarily join forces to make a final assault on the treaty to shelve it in limbo. Either they will try to enlist support for an outright rejection of the treaty, or attach substantial amendments to the treaty that would make it unacceptable to the Soviet Union, or try to link ratification of the treaty with regional issues, such as Soviet withdrawal from Afghanistan.

The question of whether or not the anti-INF treaty lobby will be able to muster enough support on the floor of the Senate to delay ratification of the treaty cannot be underestimated. There are recent cases where U.S. presidents have failed to secure Senate ratification of treaties signed with the Soviet Union. The threshold test ban treaty of 1974, the peaceful nuclear explosions treaty of 1976 and the second strategic arms limitation treaty (SALT-II) of 1979 are not ratified. Non-ratification allows both sides to violate the provisions of the treaty, just as it happened in 1986 when in contravention of SALT-II limits, the U.S. deployed B-52 bombers capable of carrying nuclear

The INF treaty has been hailed worldwide as an achievement in recent superpower arms control negotiations. Non-ratification of the treaty would certainly spell a setback not only to the process of thawing East-West relations, but also to prospects for any future arms control measures, in addition to catalysing a renewed arms spiral. If the Soviets now agree that a fifty per cent strategic arms reduction would be possible within a few months without requiring Mr. Reagan 10 give up his Star Wars programme, that opportunity must be seized to work out yet another treaty designed to eliminate nuclear weapons. A ready ratification of the INF treaty in the Senate would certainly give a further boost to the U.S. leadership in carrying out, in cooperation with its foremost ideological adversary, the responsibility of making the world free of nuclear weapons.

ARABIC PRESS EDITORIALS

Al Ra'i: Palestinians need help

ISRAEL escalated its terrorist actions against the Arab population under its rule in an unprecedented manner since its occupation of the West Bank in 1967. In the past few days four people were killed and tens of others injured by the Israeli troops in a manifestation of hatred towards the Palestinian people and a clear sign that measures will be intensified to force the indigenous population to abandon their homeland. Israeli forces have been in the habit of stemming anti-Israeli demonstrations by resorting to arrest, but now the methods seem to have changed to killing the Arab population. But it seems the more intensive Israel's campaigns against the Palestinians the more determined the Palestinians become to resist occupation and confront aggression and terrorism. The Palestinian people do not need voices to pay tribute to their heroic deeds in the face of Israel and its atrocities but they rather need a joint Arab action and unanimous Arab decision to extend practical help to them in their present ordeal. Expressions of support and distress over the sufferings of the Palestinians can do nothing to alleviate those sufferings; and what is needed is a genuine, practical action that can deter Israel from committing atrocities and barbaric actions against the Arab people of Palestine.

Al Dustour: King guides nation

IN an interview with the Cairo newspaper Al Ahram King Hussein touched on all Arab issues; and his views on Arab affairs were quite candid and open, reflecting Jordan's clear policies. The King called on the Arab countries to finalise an all-out supportive stand, backing Iraq in its endeavours to fend off dangers directed on the Arab Nation. He also reiterated Jordan's call for convening an international conference on the Middle East so that peace can be established in the Middle East on the basis on U.N. Security Council resolutions. In referring to the situation in Lebanon King Hussein urged all parties to the conflict to initiate a dialogue based on reason and objectivity so that a national reconciliation can be achieved. The King's interview with the Egyptian newspaper covered also the situation in the Israeli-held Arab land, the European role and the stand of the superpowers with regard to the Middle East and other regional questions. King Hussein who succeeded in bringing about agreement and consensus among Arab leaders at the Amman summit meeting last month now stands out as the leader of his nation to unity. pan-Arab action and solidarity. King Hussein is guiding the nation towards a clear path for fulfilling its aspirations.

Sawt Al Shaab: King urges joint action

KING Hussein has emphasised the need for maintaining the spirit of the Amman Summit meeting and solidarity among Arab states. In an interview with the Cairo newspaper Al Ahram, the King said that pan-Arab efforts have to be exerted for solving the Middle East problem on the basis of U.N. resolutions and before it is too late. He said that all parties involved in the Middle East conflict, including the Palestine Liberation Organisation, ought to be invited to an international conference where they can take part in finding a formula to end the Arab-Israeli conflict and find a permanent settlement for the Palestine problem. King Hussein said that an effective Arab move in the wake of the successful summit in Amman can and should bring about big changes in the stands of different nations which can be made to help the Arabs arrive at their objectives.

Sunday's Economic Pulse

The proposed 1988 budget: Optimistic but not impossible

LAST Monday Dr. Hanna Oudeh, the minister of finance presented the 1988 budget to Parliamant with a rather lengthy and cautiously worded speech. To describe the budget speech in not so many words one cannot find a better word than "optimistic." Itincluded a run down of achievements and positive indicators but avoided problems and challenges.

The minister did not fail to point out the positive growth rate in the economy, the stability of prices in the domestic market, the reduction in trade deficit for the fourth year, the strength of the Jordanian dinar, the maintenance of foreign exchange reserves at a safe level, the relative recovery in the Amman stockexchange, the increase in bank deposits and the growth in bank's credit facilities extended to the public and private sectors.

Perhaps the government is entitled to congratulate itself for the achievements although the minister did not quantify any of them. However, it is imperative that the government should do more on other fronts in order to curb public expenditure, reduce financial deficit, create jobs and tackle unemployment, improve the environment for investment and remove the numerous inefficiencies which hinder the ability of the economy to be more flexible and be able to adjust to the new circumstances.

The minister disclosed some policies and steps taken to revitalise the economy, such as expenditure control, increase of domestic revenues, more self sufficiency of public sector corporations, financing of the five year economic and development plan, support science and technology, encouragement of domestic production, tourism and export, and adhering to the limits and allocations set by the budget. Those policies are no doubt essential provided they are vigorously implemented and observed.

Dr. Oudeh used ample time in his speech to elaborate on development projects adopted by the budget in agriculture and irrigation, industry and tourism, energy and water, education and

such an intrusive regime.

health, and transport and communication. The capital programme was obviously rich. No one would ask for more in the circumstances. The priority should be accorded towards the consolidation of previous costly investments in these fields and the improvement of their management and efficiency rather than the addition of more

Revenue estimates were on the high side. Every revenue item is envisaged to grow in 1988 at rates ranging between 5 and 38 per cent with an overall average of 25.4 per cent.

We subscribe to the notion that revenues in 1988 will grow despite the absence of inflation. However, we are worried that the

growth may be short of these ambitious levels. High growth rate of public revenue could not happen except through one or more of the following four factors: Inflation, which is currently running at zero rate; economic growth which could not exceed 4 per cent at best; the imposition of new taxes or raising the rates, which is very unlikely; and improving the methods of tax collection, where nobody expects any miracles.

Since the government came up with these revenue figures, they became a binding decision rather than a rough estimate and the financial performance of the Ministry of Finance will be judged by

its success in achieving its own figures.

Arab and foreign aid was estimated to increase by 68 per cent over the level reached in 1987. This is of course a political challenge which is neither easy nor impossible to achieve, especially after the extraordinary success of the extraordinary Arab Summit in Amman last month.

Expenditure on the other side is expected to grow by 3.2 per cent which is quite moderate had it not been preceded by an actual 5.7 per cent increase in the 1987 budget.

Capital expenditure is planned to increase by 11.7 per cent, but the inevitable delay in the implementation of projects will secure

It has become habitual over the years that recurring expenses would be exceeded and capital expenditure would not be spent This year we don't expect an overrun on recurring expenses, as the estimates were rather realistic because the government did not have in mind more supplementary budgets for the year. Therefore the notion that the difficit may be reduced through savings in the expenditure could be taken more seriously this time. In fact the reduction of public expenditure is not only possible but necessary as

Deficit in the budget was officially estimated at JD 66.9 million. The development loans were not included in the deficit, otherwise it would have reached JD213.2 million. However, if we only include the net indebtedness, i.e., the new borrowings less repayments, we would find that the net loans would be JD 40.3 million. This would raise the overall deficit to JD 110.2 million or 10 per cent of the total expenditure. In fact the actual deficit may be lower if less amounts were withdrawn to finance development as was expected One also notices that the budget speech did not address certain

issues. The minister did not cover the performance of the economy in 1987 by providing figures of economic growth rate, the size of investments, expatriates remittances, growth in exports, the balance of payments, change in unemployment, etc. The speech did not justify the variation between the budget estimates and the actual figures for 1987; it did not shed any light on the taxation policies for 1988: it did not spell out a fiscal policy and the interaction between such policy and other monetary, commercial and developmental policies; it also did not name the priorities of the economic policy at this stage. The budget speech did not satisfy our curiosity over the soft Japanese loan of \$300 million, the loan's certainty, form, duration or conditions.

The 1988 draft budget sounds reasonable in the present circumstances and seems to be the best in a not-so-good situation.

U.S. right-wing groups mobilising to defeat INF pact

By Christopher Hanson

WASHINGTON — U.S. rightwing groups which helped sweep treaty cheating, with each side President Reagan to power in 1980 are mobilising in an attempt other's country at a moment's to defeat a pact to abolish notice. Political analysts say medium-range missiles that he neither superpower would accept signed with Soviet leader Mikhail Gorbachev.

Reagan and Gorbachev signed the treaty to scrap their intermediate-range nuclear forces (INF), the centrepiece of their

Washington summit, on Tuesday. It is the first treaty to abolish an entire class of nuclear arms. But before it can come into force, it must be ratified by a two-thirds

vote of the 100-member Senate. Right-wing groups such as the Conservative Caucus are seeking to defeat the pact with a "no" vote of at least 34 senators.

The conservatives' newlyormed anti-appeasement alliance plans a telephone, mail, radio and television drive against the treaty in home states of key senators, according to conservative caucus chairman Howard

"We'll do everything we can and I'm confident we can prevail," he told Reuters.

Reagan, the most conservative American president of modern times, is joining ranks with key Democrats to thwart his old

Many analysts doubt the treaty will be rejected outright.

But arms control backers such as deputy Senate Democratic leader Alan Cranston of California fear right-wing Republican senators could kill it indirectly with amendments Moscow would never accept --- for instance measures requring Moscow to change its human rights posture before the pact took effect.

"I believe there will be attempts to bring up amendments that (would) kill the treaty," Cranston said.

He said White House officials and key members of the Democrat-dominated Senate had begun meeting for strategy sessions on how to win ratification for the

But Reagan, 76, will have to use all his powers of influence waning as he enters the twilight months of his term — to back up his supporters on Capitol Hill.

"It will be important for the administration to stand up and be counted - they can't count on the Democrats or the man in the street to carry their water for them," said former arms control official Spurgeon Keeny, president of the private Arms Control Association.

Congressional sources saidtreaty-killing amendments would probably include proposals to:

- Force the White House tocertify Moscow's compliance with other treaties, including the un-ratified SALT-2 agreement, before the INF pact took effect. The White House has accused Moscow of violating that and other

- Require the Soviet Union to remove its troops from Afghanistan before the treaty was implemented. Gorbachev has said he hoped to withdraw the troops.

Violent anti-occupation protests engulf W. Bank and Gaza

(Continued from page 1)

demonstrations, Israeli army radio reported.

. A general strike was also reported in Rafah, where soldiers shot and seriously wounded a 17-year-old demonstrator, reports said.

Soldiers fired tear-gas grenades at a group of 200 women who brought food to the Jabaliya refugee camp where three Arabs were wounded by Israeli troops on Friday.

The Palestine Press Service said a 28-year-old Arab was wounded in Hebron.

Palestinian merchants in Hebron and Nablus closed their shops in commercial strikes. Palestinian shops also remained closed in Arab Jerusalem.

Municipal authorities in Nablus announced a mourning over the death of three Palestinians, including children aged 11 and 14. who were killed by Israeli soldiers at the Balata refugee camp on

The camp remained sealed under an army curfew imposed on Friday.

In Jabaliya, an international relief worker said he saw Israeli troops drive through the camp with a blindfolded Palestinian boy tied to the front of their jeep. The boy was arrested during demonstrations in defiance of the

curfew at Jabaliya, the eyewitness told Reuter. Demonstrators near the Islamic University in Gaza threw

petrol bombs at military vehicles but no damage was caused, army radio said. Troops broke into Bureij refugee camp after Palestinians

blocked entrances with burning tyres and threw stones, Palestinian sources said. In an Arab Jerusalem neigh-

bourhood, police dispersed protesters who burned tyres and set up roadblocks, reports said. The new wave of protest was

originally sparked on Tuesday. when four Gaza labourers were

killed in a road accident with an Israeli truck soon after a Jewish settler was stabbed in Gaza City. Residents suspected the crash was an act of vengeance.

Meanwhile politicians, press and Palestinians in the Arab World reacted with fury to Israeli actions in the occupied terri-

Palestinian leaders threatened reprisals, while Egypt told Israel on Saturday that violence would only breed violence and impede efforts for a Middle East peace settlement.

At the United Nations, the Palestine Liberation Organisa-tion (PLO) urged the Security Council to halt Israel's criminal acts in the West Bank and Gaza Strip.

Syrian-based Palestinian groups vowed to step up resistance. A spokesman for the Fateh dissident group led by Abu Musa said: "The new few days or months will witness a noticeable escalation of armed struggle inside occupied territories and in every place where enemy forces

exist. Another senior Palestinian leader described the shooting of the Palestinians as "a bitter fact that requires the hardest reprisal

In Amman. Occupied Territories Affair Minister Marwan Dudin told Reuter: "It's no use the Israelis looking outside for an explanation of what is happening inside."

He described the protests as the natural reaction of unarmed civilians to continual, daily harassment and the violation of international conventions ruling the treatment of people under occupation."

"It's a very inhuman approach that can't be accepted and it becomes disgusting when you look at the measures they take shooting a young child for throwing a stone at an Israeli car." Mr. Dudin said. "It seems the occupation authorities have lost control

of their nerves.

West Bank mayor expelled for pro-PLO activities, said: "Israel is pursuing a stronger iron fist policy. Palestinians are reacting and the vicious circle will never

"They are trying to push people to flee, to make life impossible."

Foreign Ministry sources in Cairo said Foreign Minister Esmat Abdul Meguid told Israeli Foreign Minister Shimon Peres that Cairo utterly rejected "the violent measures taken by Israel against Palestinians.

Mr. Abdul Meguid also met a PLO delegation and discussed

Abdul Jawad Saleh, a former ways of increasing consultations between Egypt and the PLO A Palestinian spokesman said

he told the team. headed by PLO Executive Committee member Mahmoud Abbas, that Egypt would work to get Israeli action against the Palestinians stopped.

Mr. Abdul Meguid's message to Mr. Peres said violence in the West Bank and Gaza would breed more violence and would impede efforts for a comprehensive Middle East settlement.

The U.N. Security Council met in emergency session Friday on... the disturbances but took no action and adjourned until Mc. 18:3

Monday.

U.N. issues new call for conference

(Continued from page 1)

By a vote of 82-23, with 43 abstentions, the assembly adopted a resolution that, as in previous years, said Israel was not a peace-loving member state and again called on all countries to apply a range of sanctions. including severing diplomatic. trade and cultural relations.

cease forthwith, individually and collectively, all dealings with Israel in order to totally isolate it in all fields.'

A final resolution, endorsed by 140-3 with seven abstentions, said Israel's decision to impose its jurisdiction and administration on Jerusalem was illegal and therefore null and void.

It deplored the transfer by some countries of their diplomatic missions to Jerusalem - most are located in Tel Aviv - in violation of a 1980 decision by the Security Council after Israel passed a law declaring the Holy City its "eternal and indivisible

capital.' The negative votes were cast by Israel, Costa Rica and El Salvador. Abstaining were the United States, Cameroon, Ivory Coast, Honduras. Haiti, Liberia and

National Geographic

Dr.CEUR

WASHINGTON - She still cannot board an airplane or check into a hotel in her own country without written permission from a male relative.

She cannot drive a car. She is in forbidden by custom to have her picture taken, as National Geographic photographer Jodi Cobb repeatedly found out.

Although today's Saudi Arabian woman usually still covers her face or head, the veil of secrecy is lifting a little, reports Marianne Alireza, who lived in a Muslim household from 1945 to - 1958 as the American wife of a - young Saudi of prominent family,

"It may not look like much to the 'liberated' Western eye," she says in the October National Geographic. But women are doing things now that were unimaginable in my day." They are, for instance, appearing in public in mixed company.

"Remembering the strict segregation of the past," Mrs. Alireza writes, "I am still amazed at mixed society in public." Married couples shop together, dine in restaurants, and enjoy family picnics on the shores of the Red Sea. It is "a notable difference from the days of men with men in public and women with women in homes.

Girls attend public schools, open to them only since 1960, although co-education still ends after age 7. Some women work outside the home and pursue careers, but usually in jobs in which they won't have face-toface contact with men.

Even though 700,000 Saudi Arabian girls now go to school, and thousands of women have earned university degrees and play a role in the progress of the country, Mrs. Alireza writes, "This is still a country where the man's word is usually final, where even 6-year-old girls cover their

The oil-rich kingdom of Saudi Arabia has a new face as a result of development, modernisation,

and industrialisation.

Islam "is the state, the moral and civil code," Mrs. Alireza writes. "It is all matters big and small, ever imbued with an awareness of God's will and

A powerful and strict group of Islamic religious leaders called the ulama advises the royal family on every aspect of life in the kingdom.

Public-morality committees, the regional Societies for the Preservation of Virtue and the Prevention of Vice, ensure compliance with religious requirements. Morals police patrol cities to make sure that businesses close at prayer times and that women are properly covered and stay out of places such as popular discomusic cassette shops.
But desert Bedouin women,

who live out of sight of morals police, slip behind the wheel of pickup trucks - the only Saudi women who drive.

Curiously, in Islam women have had independent legal status. From behind the veil, they have been able to inherit and own property. As the Saudi nation prospered, so did their investments and holdings, leading to a proliferation of women's banks.

Women also have had the right to divorce for certain reasons, although this has been difficult to achieve in the male-dominated society. Man-created traditions and practices, Mrs. Alireza reports, often have denied women their rights.

By contrast, a man can still divorce his wife by saying "I divorce you" three times. He does not have to state any reason.

Most Saudi marriages are alliances between families. Islamic law gives a woman final approval over her family's choice. Legally, a Muslim man can have four wives simultaneously — if he can give each wife equal material goods and equal time. So monogamy is by far the norm, Mrs. Alireza says, although divorce rates are on the rise.

New to education, women are excelling in the classroom, Mrs. Alireza learned. Girls consistently outdo boys in scholastic testing, and in one graduating class, girls — outnumbered 30 to 1 took the top five places.

But at the King Saud University College for Women in the capital city of Riyadh, courses taught by male professors are conducted via closed-circuit television, because women students may not be seen unveiled.

Students arrive wearing their black veils and cloaks, but once inside shed their street wear, revealing brightly coloured frocks underneath. Each student has her own desk-top TV and direct-line telephone to the teacher, for asking him questions.

Since 1980 women have been barred from study abroad unless accompanied by a male family member, because of Saudi government concern that they are being unfavourably influenced in Western societies.

Today's educated women, Mrs. Alireza writes, might still wear the veil - some displaying insignia of Paris designers - and they might still be the wives and mothers they have always been. But they are also teachers, computer technicians, social workers, laboratory technicians, physicists, engineers, bankers, and filmmakers.

Although most work in allfemale facilities, some doctors, nurses, administrators, radio announcers, and journalists work with men. Long skirts, long sleeves, and head scarves are customary for women on the job. In a two-hour luncheon with

woman behind the wheel is a rare sight in Saudi Arabia, where females are forbidden to drive. The only Saudi women known to drive are desert Bedouins who live out of sight of the kingdom's morals police. This woman drives the tribe's water truck, which has replaced camels and treks on foot.

professional women, Mrs. Alireza heard that government policies for women are becoming more restrictive, that there are efforts to deflate curricula to bare-bones studies geared to making better wives and mothers. that formerly productive training and study facilities are being shut or limited, and that access to the workplace is narrowing stymieing the careers of highly qualified

At a debate at the King Saud women's college, one woman commented: "It is a part of life that change is coming. It might take longer, it might take shorter, but we are hoping for the best for our society, within our religion. within our morals, within our readiness to foresee and digest change. Because then it will be for the better.

To which Mrs. Alireza adds. "Inshallah" — God willing.

civilisations: What was the cause?

By Ivetta Useinova

AN ORIGINAL answer to this question, long agitating many scholars, has been offered by well-known Leningrad geochemist doctor of geology and mineral-ogy_Sergei Neruchev.

There is every reason to believe," says the scientist, "that only uranium could have been blamed for many dramatic events in human history.

"Uranium and Life in the History of Earth" is the title of Sergei - Neruchev's monograph, which sums up his own and other Soviet and foreign scientists' findings and advances his hypothesis about the special role which this radioactive element may have played in the evolution of life on our planet.

The history of the Earth, says of scientist, can be divided into some regular intervals of time during which the radioactivity of the natural environment increased by many times, with uranium content rising by tens and even hundreds of times. It was precisely in those periods, he thinks, that the biosphere had its crucial moments when all of the planet's organic world changed cardinally. Global ecological disasters erased for ever whole species of terrestrial flora and fauna. giving rise instead to entirely new forms of animals completely different from their predecessors.

in the view of the author, died out suddenly, as was the case with the dinosaurs, as a result of direct ionising radiation and radioactive poisoning. The "newcomers" on the planet — the first skeletal organisms, quadrupeds, birds and mammals - are the result of probably a powerful mutation process. All these "openings," as Neruchev ascertained, occurred simultaneously with radioactivity rises in the biosphere. Significantly enough, the appearance of first men with the presence or sometimes predominance of Homo sapiens traits coincided with one of the uranium-accumulation periods, as established by Neruchev. This coincidence, as well as many other facts, enables, believes the scientist, the following conclusion to be made: Man himself is probably the product of radioactive epochs.

The "established" inhabitants,

"People have raised themselves to the rank of King of Nature," observes Sergei Neruchev. "In biological terms, the human being is just a regular component of the biosphere. And, understandably, events in the history of the biosphere could not but affect the biography of humanity, of the whole of civilisa-

Radiation - known today as the most potent mutagenic factor - operated in this quality, claims Neruchev, also in the past geological epochs, determining the entire course and certain pattern of development of the planet's organic world.

"All new animal species unquestionably arose at once, without prior preparation, and could be produced only by mutagenesis." asserts Neruchev. "This is proved for example by the fact that the organic world changed in those epochs at one and the same time on land and at sea, with all organisms involved, from unicellular algae 10 to 50 microns in size to 50-ton dinosaurs. The mass extinction of gigantic reptiles was not a single or extraordinary episode in the planet's history. As I calculated it, in the Phanerozoic epoch alone -- that is, over the past 600 million years - such cataclysms have occurred at least twenty times, and all of them have been associated with uranium.

Neruchev came across the

'uranium connection" in past

biospheric events while studying geochemical anomalies thought for a long time to be mysterious. It was not understandable why these deposits — no more than 20 to 25 metres thick but extensive in territory - contained the innumerable remnants of microorganisms. This unusual presence of organic matter in the rocks attracted Neruchev's special attention when in line of his duty the scientist heads the oil and gas genesis and geochemistry department at the USSR Institute of Geological and Oil Prospecting Institute — he began study of the oil and gas bearing Bazhenov formation in Western Siberia. The discovery of the "Siberian phenomenon" was a sensation mainly because of its unusually amole organic filling. Extending over an area of more than one million square kilometres. it has in it up to 20 per cent of organic matter, as against the 0.6 per cent

found in ordinary sediments. Astronomical masses of organic matter, out of proportion to the volume of containing rocks, were found to be a feature of many other deposits scattered all over the world and dating from different epochs. Evidently, at a time when the deposits were first formed, concludes the researcher, the planet must have had some unusual conditions. What were those conditions?

In studying the "odd sediments," Neruchev hit upon some surprising circumstances, which. formed into a chain in time and space, suggested an unexpected conclusion: The geochemical anomalies proved to be concomitants of turning points in the history of the organic world. The scientist could explain this far from accidental circumstances when he discovered that the layers rich in organic matter in sedimentary rock also had in them an unusually high concentrations of another substance this time uranium. The conclusion was unequivocal: Contrary to the ingrained view about the fairly permanent content of uranium on the Earth's surface and in the hydrosphere both at present and in remote geological epochs, this content actually changed repeatedly. And the amount of this element in large seas and prob-

accumulated in an intensive way. Neruchev's balance analysis shows that the intensive accumulation of uranium in sediments could proceed only when its content in the habitat environment of organisms exceeded the present level by tens and hundreds of

ably in the entire world ocean

increased manifold precisely in

epochs when organic matter was

"Many of the older riddles in the history of the living world of the planet can be elucidated if we try to look at them through the prism of new sciences radiobiology and radiation gene-tics," says Neruchev. "What then appeared mysterious and even supernatural can today get a scientific explanation.

Radioactive substances are at present known to possess a miraculous effect on all biological entitities. It has been proved that response of the biosphere to ionising radiation may take the form of both depletion of living biota and of the extreme bioproductivity of the protozoa. All these changes found in a uranium-polluted natural environment were detected by Neruchev in the periods when uraniumbearing deposits full of organic matter were formed.

The fact that at least three short periods of enhanced radioactivity of the natural environment occurred during human history makes it possible, in the view of Neruchev, to take a new look at a number of past events. It seems quite likely that precisely uranium pollution of their habitats caused mass migrations of peoples known in history. This factor could also be operative in the decline of many highly developed ancient civilisa-

Sergei Neruchev has compiled special table in which, taking the distribution of uranium and organic matter in the sediments of the Mediterranean and Black Seas, he tried to identify them with stages in the development of humanity and changes in the archaeological cultures.

Curiously enough, the table indicates that a maximum of uranium in the sediments 7,100 to 5,000 years ago is matched exactly by apparent gaps in cultures prevalent in the Eastern Mediterranean, the Black Sea coast and the Middle East. For example, the developed Neolith in Palestine, with its typical settled way of life, numerous villages and even towns, among them the famous Jericho, suddenly suffered a decline. The population turned to a nomadic existence. Significantly, that was also the time when the well-developed agricultural culture of Hassari in Northern Mesopotamia, a number of cultures in the Eastern Mediterranean and some large cities in Anatolia collapsed.

Another and perhaps the shorsome three thousand years ago, marks the decline of late Hellas. the destruction of Troy by Greeks, the downfall of the state of Hittites in the Middle East, and the disappearance of the culture of Harappa and Mohenjo-Daro in the Indus valley.

Admittedly, stresses the scientist, all these conclusions are hypothetical and need facts to support them. But one thing, in his view, is absolutely obvious: The existence of geochemical anomalies and of matching periodic changes in the world of living things. The role which these events may have played in the destinies of mankind must undoubtedly have been considerable (APN).

Kloske, Israel's new man at Pentagon? By Claudia Wright

WASHINGTON — Israel has new ally at the Pentagon. Dennis Kloske, a 33-year-old with a Harvard degree and three years of incomplete study at Oxford, has shot to the top of the Pentagon nierarchy with no military expertise, no record of technical skills or military command, no published writing, and almost no Washington experience.

In August, without publicity, Kloske was named the deputy under secretary of defence for planning and resources, with responsibility for U.S. armaments planning and for defence cooperation between the U.S. and its NATO allies. How a young man with such limited qualifications and even lesser reputation could occupy such a post is explained by Kloske's powerful patrons in the U.S. government, and by the importance Israel presently attaches to getting the U.S. to allow unlimited access for the Israeli military establishment to NATO military contracts, NATO technological developments, and eventually perhaps even NATO

war plans. The Pentagon post Kloske occupies is one that had been held for several years by a former rabbi, Dov Zakheim. Zakheim was one of several Jews working at the Pentagon for under secretary of defence. Fred Ikle, a naturalised American of Swiss origin. The group included two men who have been investigated for spying for Israel, Stephen Bryen and Richard Perle; at one time the group also included Noel Koch, once the Washington lobbyist for the Zionist organisation of Amer-- ica. As the Reagan administration draws to a close. Perle, Koch and Zakheim have all resigned to become consultants to private industry. Kloske is from an entirely fresh generation of Israel allies now moving into the Pentagon to

replace those who are leaving. His background is unusual for most Pentagon officials, but similar to the others in the Ikle group. He was born in Rome in 1954. and he has lived outside the U.S. for most of his life. Associates say his father was a U.S. diplomat posted in Europe. Kloske speaks fluent French and Spanish, and ome German; no Hebrew. He eceived a B.A. degree from Harard in 1976, and won a Rhodes Scholarship to Oxford University. where he studied between 1977 and 1980. In 1980 he also studied at the French war college.

Kloske did not receive a degree at that time, and his Patagon file. indicates that he has been a candidate for a Ph.D. degree since 1984. Several of Israel's allies in the Defence Department have had a similar patern of academic study in Britain or rance — Perle spent a year at the London school of Economics without taking a degree, and two of Perle's deputies, one born in Minsk, Soviet Union, and in Geneva, Switzerland, spent even longer periods abroad on doctoral research. Former U.S. Navy intelligence officer and convicted spy for Israel, Jonathan Pollard, received part of his training in espionage while studying at an institute in Paris. Pollard cut short his academic studies to join U.S. intelligence in 1979.

Kloske's academic studies were halted in 1981 when he returned from England to Washington to become the executive assistant to David Abshire. It has been under Abshire's patronage that Kloske's career in the U.S. government has taken off. Abshire is a well-connected Republican. who held a State Department post during the Nixon administration and went on to direct the centre for strategic and international studies of Washington for a decade between 1973 and 1983. The Reagan administration appointed him ambassador to NATO in 1983, and he took Kloske with him, where he was given the title of special assistant, and then promoted to "special adviser for armaments." Last December, at the height of the Iran arms scandal, Abshire became special counselor to the president, with the job of aiding the administration under the pressure of the Iran investigations. Once again Kloske accompanied his patron, becoming his adviser at the White House. When Abshire decided to leave in April, after just three months, Kloske was given a Pentagon post as special adviser to the deputy secretary of defence for armaments. Veteran Pentagon officials say they are unaware of Kloske's expertise in

as deputy under secretary was announced Aug. 2. Pentagon and congressional sources say Kloske's job involves the compilation of the annual "defence guidance" — the Pentagon's overall strategy for budget and planning decisions — and of the report which the secretary of defence makes to Congress each vear. Kloske is also chairman of the defence cooperation working group; this is a group of U.S. government officials involved in cooperative military research and development with the NATO

the armaments field. His new title

treaty allies, Japan and Australia. For several years now, Israel has been pressing its friends at the Pentagon and in Congress to allow Israel's military industries to take a share of NATO contracts for arms, equipment, other military supplies, and maintenance work. In 1986 Congress voted to set aside \$40 million of a programme to finance U.S.-NATO military research and development; the money was officially intended by Congress to help "major non-NATO" allies; in practice, it was designed as a further subsidy for Israeli military industries. However, the NATO allies are opposed to the Israeli push for contracts because the NATO member states believe Israel may use its congressional power to undercut NATO companies. No money was awarded to the Israelis in the financial year just ended, and Congress has criticised the Pentagon for not doing more "to explore worthwhile cooperative projects with

major non-NATO allies. Kloske's predecessor Zakheim attracted criticism in Israel for his opposition to the "Lavi" fighterbomber, the Israeli aircraft financed by the U.S. until American objections to the huge cost overruns compelled the Israelis to cancel the project a few weeks ago. To offset the losses to Israel's defence industries, Zakheim has since advocated

new U.S. assistance to Israel. One of the Israeli schemes Zakheim supports is U.S. funding - as part of the "Star Wars" programme — for an Israeli effort to build a missile system for attacking short-range battlefield missiles. Estimated to cost at least \$200 million this system is defended by the Israelis and their Pentagon allies as necessary to protect against Syria's ballistic missile systems. Zakheim claims the Israeli scheme would have tremendous value to ... America's European allies, to assist in the defence of Atlantic alliance airfields..." Zakheim also supports Israeli demands for at least \$100 million a year in military maintenance contracts from NATO for Israeli companies.

These and other Israeli demands were on the agenda of the meeting of the U.S.-Israel joint security assistance planning group, scheduled in Washington early in October. Gen. David Ivory, secretary-general of Israel's Defence Ministry, asked for a postponement because his son had been killed in an aircrash.

Pentagon officials, participate in the meetings of this group, but Kloske's role is not yet clear. Pentagon sources have confirmed that Kloske has visited Israel in the past and that his current responsibilities cover defence cooperation with non-NATO, as well as NATO allies. It is believed that Kloske will be as active in U.S.-Israeli negotiations as his predecessor Zakheim was. Without recognised technical expertise in the military issues involved, Kloske's principal qualification for the task is that he will do what his superiors tell him. Whether these orders originate in Tel Aviv remains to be seen

Japanese firm envisages man-made state in middle of Pacific

By Janet Snyder

TOKYO - A metropolis, like another Atlantis, will rise in midocean. At least, that's what one major Japanese construction

company hopes. The Shimizu Construction Company, Japan's biggest in terms of sales, has plans to create an independent city-state the size of Tokyo in the middle of the Pacific Ocean, far from any existing land.

The territory, with a land area of 700 square kilometres, would be constructed by building a circular dam and sucking all the water out of the middle. The land would be about 100 metres below sea level.

To build it would require more than \$1,100 billion and at least 12 years of work, the company said. The project, dubbed "Marinnation," would be home to about one million people and would be equipped with two airports to ferry in tourists, said Shimizu engineer Tadahiko Okumura. The planners say they also want to build a space port. It all sounds rather far-fetched

unprecedented entity would square with international law. Okumura says: "There will be many political and social questions that have to be answered before it all goes through. We would have to find some means of

after fighting broke out in the Third Division game between Brentford and Mansfield and Portsmouth's Kevin Dillon, sent off against Everton two weeks ago, was one of two players shown the red card in the 1-1 draw with Newcastle.

He and Newcastle centre half Peter Jackson were sent off after trading punches midway through the first half.

Liverpool, having conceded a miserly nine goals in the league this season, must have thought they were on their way to victory number 14 when Barnes turned on his magic to shoot them 2-0 ahead after 38 minutes at the dell.

First, he volleyed home a John Aldridge cross in the 11th minute and then he rounded off a sixman move by swapping passes with Ray Houghton and firing in spoils in a rousing 2-2 draw, but off a post.

Colin Clarke raised Southampton's spirits by beating goalkeeper Bruce Grobbelaar with a looping header two minutes before the break and Andy Townsend tied up the scores with a first-time shot from the edge of the penalty box in the 71st mi-

Derby's defeat at Everton ended a six-match unbeaten run which had carried them from near the foot of the division to a healthy mid-table spot. Everton never looked back after Ian Snodin had put them ahead with a 25-metre shot in the 28th minute.

Liverpool's unbeaten record,

hardly in danger for most of the first half, finally was preserved by Steve Nicol's last-minute clearance off the line from Matthew le Tissier's header. The "reds" had dominated the early stages, John Barnes volleying them into the lead after 11 minutes and scoring a magnificent second when he finished off a breathtaking sixman move in the 38th minute. But then Liverpool prevented Southampton with a lifeline, Col-Clarke deceiving goalkeeper Bruce Grobbelaar with a looping 43rd-minute header.

|Swede swims| Canadians triumph in men's downhill to victory in European Cup heats

MONACO (R) — Swede Anders Holmertz, who deposed West German Michael Gross as European 200 metres freestyle champion, led qualifiers for the 400 metres freestyle final in the European Cup short-course swimming meeting on Saturday.

Gross, opting out of individual freestyle events in Monaco, reached the final of the 200 metres butterfly without trouble, coming second in his heat behind Ondrej Bures of Czechoslovakia.

In the 400 freestyle, Holmertz and Briton Kevin Boyd set the pace as former world and Olym-pic champion Vladimir Salnikov of the Soviet Union was fourth fastest overall, taking third place in his heat behind Holmertz and West German Stefan Pfeiffer.

Holmertz clocked three minutes 45.13 seconds, with Boyd on 3:45.33, Pfeiffer 3:46.82 and Salnikov 3:46.99.

Salnikov, 27, has won the 400 and 1,500 events five times apiece since the European Cup was first held in 1980 but Holmertz and Boyd looked very strong in the heats with the finals to follow the

culminating in the horrific colli-sion with Sliskovic.

Convalescence

His life as well as his career hung by a thread after the accident but his courage and fitness pulled him through and last Friday he walked, albeit somewhat shakily, out of the hospital.

"I am used to being in good shape," he said in a telephone interview with Reuters. "It was awful to feel my knees tremble as I walked from the hospital. But, I was happy to be alive again. And the pain slowly died away."

First he did a light walk around Sarajevo town centre with his parents, three brothers and several close friends, and then they all went home to Titograd — and he began planning a return to play-

Back to life

"If doctors give the go-ahead, I will start training with Red Star next spring." Meanwhile, he is under strict medical orders.

"I trust them totally," he said. "I owe them my life. They pulled me out when everything seemed to be lost, so I will obey them to the letter." Doctors will examine him again later this month and

a permanent place in the national map out plans for his further team came the chain of disaster, recovery and rehabilitation into

> "I don't want to take too much risk," he said. "I want to play soccer again, but preferably as a normal person.

Sabanadzovic described unusually vivid memories of the accident and coma, which amazed doctors accustomed to coma patients being unable to recall the immediate past.

Reminiscence

"I think I had a touch of 'deja vu' before the game. I told my friends I dodn't feel like playing at all," he said. "before joining Red Star this year, I spent four seasons in Zeljeznicar and am still emotionally tied to the Sarajevo players and fans."

"I felt I would play only halfheartedly against my old teammates, but I am a professional. My coach wanted me to play, so I played despite strange feelings just before kick-off. I felt like I was teasing fate."

He played for only 16 minutes in his usual midfield role and then disaster struck.

"I remember almost everything, although doctors say it is very unusual. I remember going for a high ball with my head. Then a player in blue flashed from nowhere and a terrible pain shot right through me.

"I saw rainbows. I saw green grass rolling towards me. I didn't want it to hit my head but it did. After that, it was darkness. I remember some beams of light and a lot of noise from the time they said I was in a coma. I'm not sure if I was dreaming or was just half-conscious.

told Reuters.

Lakers romp to NBA victory

Dominique Wilkins broke out of a shooting slump by scoring 45 points, leading Atlanta over Golden Siate.

Wilkins, who has been hampered by an assortment of injuries this season, came into the game hitting 40.6 per cent of his shots and had hit only nine of 30 field-goal attempts in his previous two games. But he broke loose for 19

buzzer, giving Los Angeles a 115-114 victory over the Celtics. He finished with 18 points and 17 points in the first quarter and scored 20 more in the third "That guy has liquid oxygen in period. Wilkins made 18 of 25 shots for the game and added 10 'That's the coldest substance

Wilkins accounted for 15 points as the Hawks raced to a 21-8 lead. The Warriors, who were led by Joe Barry Carroll with 16 points, Johnson, the NBA's MVP in both got no closer than five points the rest of the way.

Mavericks 108, Suns 104

Dallas edged Phoenix in Mavericks coach John Macleod's first game against the team he coached for 14 years.

Sam Perkins scored six of his 16 points in overtime, including two game-clinching free throws with two seconds left, after the Suns missed their first seven shots in the extra period. Perkins hit his free throws after he rebounded a missed free throw and was

Mark Aguirre had 28 points and Rolando Blackman 24 for the Mavericks, and James Donaldson had 20 rebounds, including a club-record 11 on the offensive end.

James Edwards had 32 points and 16 rebounds, both season highs, for Phoenix.

Bucks 125, Trail Blazers 112

Milwaukee handed Portland its third consecutive loss after nine straight victories as Jack Sikma scored 25 of his 35 points in the second half.

Terry Cummings added 28 points for the Bucks, who used a decisive 16-7 run in the fourth quarter to clinch the victory. Paul Pressey scored seven points and Cummings five in the spurt, which extended a 94-93 lead to

Portland was led by Steve Johnson with 25 points. Clyde Drexler scored 21 before he was ejected for bumping referee Bernie Fryer in the third quarter. Craig Hodges and Paul Pressey had 20 each for Milwauke.

Pistons 114, Builets 108

Detroit won its fifth straight as Joe Dumars made eight of his 22 points in the final 4:25 against

A 30-16 spurt by the Bullets cut a 15-point deficit to 98-97 with 6:36 remaining, and they still trailed only 101-100 when Dumars started his spurt. He hit a pair of free throws, a 17-foot (6-metre) jumper, a 12-footer (4metre) and two more free throws down the stretch.

Cavaliers 115, Kings 113

Cleveland handed Sacramento its seventh consecutive loss as Mark Price scored 15 of his 18 points in the fourth quarter.

The Cavaliers, who outscored the Kings 36-23 in the final period, pulled ahead 114-113 with 31 seconds remaining on a threepoint play by Brad Daugherty, who led Cleveland with 27 points. | lenger.

'exaco, Pennzoil reach billion agreement

NEW YORK (R) - Pennzoil able settlement could have been which Texaco would pay at least \$3 billion to settle the companies' long legal battle.

The plan, which could end the four-year dispute arising from Texaco's 1984 takeover of Getty Oil. requires approval by both the bankruptcy court overseeing Texaco's affairs and by two-thirds of the firm's shareholders.

In a statement, Texaco, the third largest U.S. oil company, did not say whether it would accept or oppose the Pennzoil plan, but it was clearly upset its shareholders' committee had agreed to any accord. "Texaco believed a more equit-

Greek share prices soar

ATHENS (R) — Share prices rose sharply in heavy trading on Friday on the Athens Stock Exchange after the Greek government announced measures to encourage investment and exports and develop the stock market.

The general indicator of share prices rose 27.4 per cent to 6,575.7. Bank and insurance stocks rose 25.34 per cent from Thursday's closing.

Market analysts said the trend was expected to continue as the measures announced on Thursday by National Economy Minister Panayiotis Roumeliotis gave substantial tax deductions to pri-NOTE vate companies willing to invest

this year's profits in 1988. Shares lost about half their

said on Friday that it had reached achieved with Pennzoil if the agreement with representatives equity committee had not acted of Texaco's shareholders under unilaterally," the statement said.

The proposed settlement would be less than a third of the \$10.3 billion judgment awarded to Pennzoil by a Texas court which held that Texaco illegally interfered in Pennzoil's plan to take over Getty in 1984 before consummating a merger with Getty itself.

It was also not immediately clear whether Texaco creditors, who must be a part of any Pennzoil-sponsored plan, would back all elements of the accord. A representative of the creditors' committee said the committee had not yet taken a position on whether to support the plan.

nomy minister, Mr. Kostas Simitis, resigned on Nov. 26 over an incomes policy disputes with Prime Minister Andreas Papan-

Mr. Simitis was the architect of a two-year austerity programme introduced by Mr. Papandreou's Socialist government in October 1985 which virtually froze wages in an attempt to curb inflation and to reduce foreign debt and

the current account deficit. The current annual rate of inflation is estimated at 16 per cent compared with 16.9 per cent in

A 1988 budget presented to parliament on Nov. 25 forecast a 23.9 per cent increase in the budget deficit to 957.03 billion value after former national eco- drachmas (\$7.0 billion).

fence World's top carmakers **BC in join forces in Australia**

MELBOURNE (R) — General Motors (G.M.) of the United States and Toyota of Japan, the world's largest carmakers and fierce competitors, will join forces in Australia, they said on Friday.

Spokesmen for the car giants said they would share the manufacture of several car models the first major step in a government-forced restructuring plan. By 1990 the government wants

the number of models built locally to be halved to just six, and the half dozen existing manufacturers to merge into three companies. G.M.'s Australian Chairman

Chuck Chapman denied a reporter's suggestion that the deal was a shotgun marriage.

"This has taken two years of very deliberate negotiation," Mr. Chapman said. "A shotgun wedding is very hastily conceived under pressure of imminent cir-

Under the first stages of the joint venture the new company would from 1989 coordinate the manufacture of three cars, two from Toyota and one from G.M., in plants owned by the two companies.

DOWN

THE Daily Crossword by Robert O. Wilson

John Button praised the G.M.-Toyota merger as a major step towards making Australia's motor industry internationally competitive.

The Australian car industry, protected by tariff barriers since the 1940s, has been exposed to increased competition from imported cars and hit by depreciating local currency.

New vehicle sales slumped 33 per cent to 407,000 in the financial year to June 1987, according to recent industry statistics.

General Motors spent more than 700 million dollars (\$490 million) last year bailing out its Australian unit, Holden's Moto Company, after four years of heavy losses.

Mr. Chapman and Toyota's Australian Managing Director Noboru Itaya said the joint venture would produce up to 170,000 vehicles annually or around 40 per cent of the Australian

Further cooperation was possible but Mr. Chapman added: "We've only just decided to get married and we're not about to name the grandchildren yet.'

Tunisia expects to earn \$630m from tourism in '88

TUNIS (R) — Tunisia, which is putting more emphasis on tourism as its oil reserves dwindle, unveiled a draft 1988 budget on Friday forecasting reduced economic growth.

couche told parliament that June. to be 2.5 per cent after an esti-mated 5.5 per cent in 1987.

policy speech on the economy since President Zine Al Abidine Ibn Ali replaced ageing head of Mr. Baccouche stressed that foreign debt should not go above current levels.

Tunisia, which came under an International Monetary Fund period. (IMF) programme for the first time last year when it sought cash loans to overcome urgent balance

Prime Minister Hedi Bac- and the World Bank by the end of

growth of gross domestic product An international loan confer-(GDP) in real terms was expected ence under World Bank auspices is due to be held here next month to try to attract fresh investment, In the government's first major central bank governor, Mr. Ismail Khelil, says.

Total foreign debt reached 4.2 billion dinars (\$5.3 billion) at the state Habib Bourguiba on Nov. 7, end of 1986, or 59.5 per cent of gross national product (GNP). The 1987-1991 plan predicts it will dip to 56.4 per cent of GNP by the end of the five-year

Mr. Baccouche said the 1988 current account balance of payments deficit was expected to of payments problems, is seeking about \$700 million from the IMF million). The 1987 estimate is 300

Tourism, badly hit in 1986 by violence in the region and threatened by four hotel bombings in eastern Tunisia this year in which 12 British and Italian holidaymakers were injured, is predicted to be a growth sector in

Mr. Baccouche said tourism was forecast to net 575 million dinars (\$730 million) in foreign currency in 1988, compared with 500 million dinars (\$630 million)

Without the sectors of agriculture and petroleum, GDP growth is forecast to be 5.3 per cent in real terms.

Both these sectors are critical to the Tunisian economy, which has been largely powered by modest oil exports. But the country will become a net oil importer in 1991, with a deficit in the sector of about 50 million dinars (\$60 million).

Morocco envisages 4% annual growth for development plan

that a new development plan containing sweeping liberalisation measures will trigger annual economic growth of four per cent during the next five years.

The 1988-92 plan was overwhelmingly adopted by the coun- providing under one-fifth. The try's parliament on Friday, removing the final hurdle to its implementation.

Planning Minister Rachidi Ghazouani indicated to the chamber of representatives he was confident the four per cent target would be met.

The new plan, which follows a two-year gap between plans while the government renegotiated high debts, aims to expose over 400 state-run industries to competition and promote more free enterprise throughout the eco-

Bank," one Western diplomat

Private enterprise is expected \$26 billion investment programme with the government itself rest will be provided by local authorities and public enter-

The private sector is to be entrusted with developing "vital sectors" such as ocean fishing, industry, mining and tourism.

Morocco has already begun liberalising a highly-regulated banking system. More action is centre-piece remains the attempt to inject dynamism into its sluggish state sector.

Mr. Ghazouani has said the "This plan reads as if it could, itself of public enterprises, and tion drive.

RABAT (R) - Morocco predicts have been written by the World some of the more attractive ones will be privatised.

The shake-up of state-run industries is to be partly financed to finance more than half of the by a World Bank loan of \$240 million. Over the last two years,

Morocco's foreign debt climbed from over \$10 billion to \$14 billion and sparked a review of economic policy. Economic prospects improved

greatly following two good harvests and a steep drop in the price of oil imports which virtually eliminated high trade deficit.

Other key elements in the plan envisaged in the new plan, but its are a curb on the growth of civil servants' salaries, price increases in the public sector, tax reform and improved revenue collection, tight control of money supply. povernment will gradually divest and an efficiency and modernisa-

ANKARA (R) — Turkey accelerated its foreign debt repayments in the first nine months ter Turgut Ozal has ruled out any of 1987 but total debt also rose, rescheduling and voices pride in trol Services PTY, was the first of central bank officials said on

IT DAO PAIO DACK \$5.96 DILLIOI by October, compared with \$3.28 million repaid in the January-September period of 1986, the officials said.

Turkey's foreign debt stood at \$33.1 billion by the end of June, up six per cent on total debt of \$31.2 billion at the end of 1986.

Officials said the debt had risen a further billion dollars since June and banking sources predicted the total might reach \$37 billion by the end of the year.

increasing debt, but Prime Minis-Turkey's repayments record.

The officials said Turkey's balance of payments figures for the first nine months of 1987 had not yet been worked out but tourism revenues rose by 38 per cent and remittances from expatriate

workers by 26 per cent. Ankara initials power station deal with Australian group

Meanwhile, an Australian-led consortium has initialled a contract with Turkey to build a \$1.4 billion thermal power station and

Strike halts life as Dhaka Aquino gets last laugh on relaxes ban on politics bed jibe

Bangladesh closes BBC operations

DHAKA (R) — An opposition-led general strike took hold partially across Bangladesh on Saturday with no reports of violence as the government relaxed a state of emergency ban on political

Police and paramilitary troops of the Bangladesh Rifles patrolled streets in the shuttered city of Dhaka, where there was no traffic except for some rickshaws and

state corporation buses.
Rail and ferry services were mostly cancelled, but airlines and ports operated almost normally. Many government offices and banks were open, officials said. It was the 13th day of stop-

pages since Nov. 10 when 21 opposition parties launched a national campaign aimed at forcing the resignation of President Hossain Mohammad Ershad.

Gen. Ershad, who has ruled Bangladesh for nearly six years. has said he will not step down under pressure.

The official BSS news agency, quoting an official announcement, said the government had decided to close the British Broadcasting Corporation (BBC) operation in Dhaka because of its "continuing hostile and tendentious propaganda against Bangladesh... which is tantamount to

The announcement added: "Any Bangladeshi national trying to establish contact with or transmit news to the BBC would do so at his own risk as he would come under the mischief of the relevant provisions of the law."

Newly-freed opposition leaders staged protest rallies in Dhaka defying emergency laws on Friday, renewing calls for Gen. Ershad's resignation amidst speculations he might concede to their demand for a caretaker government to hold new elections.

A source close to Gen. Ershad told Reuters on Friday presidential aides were still working on the details of such a contingency

The dawn-to-dusk strike coincided with a government decision to relax the ban on political activity, allowing opposition groups to hold meetings inside their offices.

Police said no violence was reported in the first five hours of the stoppage. Witnesses said at

some place protesters hurled stones at securitymen and jeered at people walking to their offices

in the absence of transports. Gen. Ershad ordered a state of emergency on Nov. 27 which banned rallies and marches, placed capital Dhaka and four other key cities under intermittent curfew and imposed stiff curbs on news reporting.

Subsequently he offered to hold talks with opposition parties on early elections and promised a free and fair vote to resolve the worst crisis since he seized power in a bloodless coup in March

He also dissolved the country's 330-member parliament on Dec. 6 and freed the main opposition leaders Sheikh Hasina and Begum Khaleda Zia from a month of house arrest on Thursday to pave way for the talks.

Bangladesh on Saturday expelled the visiting correspondent of the BBC a few hours after it said it was closing down the organisation's operations in Dhaka, Indian sources in Calcutta said.

The sources said Phil Jones, a British national, was escorted by a Bangladeshi intelligence official from his hotel and put on a plane

Rival Tamil rebels clash in northern Sri Lanka

COLOMBO (R) — Rival Tamil groups clashed in northern Sri Lanka, killing an unknown number of rebels, military officials said on Saturday.

They said the fighting broke out on Friday in Vavuniya district between the Liberation Tigers of Tamil Eelam (LTTE) and the Tamil Eelam Liberation Organisation (TELO).

The English daily Sun reported at least 15 Tigers and one TELO fighter were killed and scores of others wounded. Military officials only said

many were killed and both sides used rocket-propelled grenades, mortars and small arms. --The Tigers, which oppose a

July peace pact to end a four-year-old Tamil separatist war in the island, have been involved in internecine fighting wanted to be the dominant added.

The three anti-Tigers groups have accepted the pact, which is being enforced by up to 35,000 Indian soldiers who launched a major operation against the Tigers in October to confiscate weapons and continue to bear the brunt of Tiger attacks.

President Junius Jayewardene told Judicial Service Association meeting on Friday that 600 to 700 Indian soldiers tost their lives to implement the accord.

"We had lost about one (Sri Lankan) soldier a day in the last four years, but since the signing of the peace accord, not a single Sinhala, Tamil or Muslim soldier has died," the state-run Daily News quoted him on Saturday as saving

"Their place has been taken by with TELO and two other Tamil the Indians. I want to stop that factions because the LTTE also as quickly as I can," he

American may be tried in Managua war crimes court

MANAGUA (R) — An American pilot shot down as he flew a light plane along Nicaragua's Caribbean coast could be tried in a revolutionary court for involvement with U.S.-backed rebels, Interior Minister Tomas Borge

Mr. Borge told reporters on Thursday night that James Jordan Denby, 57, was being interrogated in a maximum state security ail but would eventually be handed over to the Justice De-

The American will probably be tried in a "people's tribunal," a special court originally set up for judging war criminals and counter-revolutionaries, Mr. Borge

"It all depends on the degree of the North American's guilt," he

Nicaraguan officials said captured documents proved Denby. a rancher from Carlinville, Illinois, was linked to the contras. Defence Minister Humberto Ortega has said the American may have been involved in a plot to assassinate Foreign Minister Miguel D'Escoto.

Mr. Denby was seized last Sun-day when his Cessna 172 was forced down on a beach on Nicaragua's eastern Caribbean coast after being hit by Sandinista rifle fire just north of San Juan Del Norte, 240 kilometres south east said. He declined to predict what sentence would be appropriate. of Managua, close to the Costa Rican border.

U.N. reports only 8 war crime files are missing

but eight of more than 465 files that were reported missing in the U.N. war crimes archive have been accounted for, the United Nations said on Friday.

An inquiry ordered by Secretary General Javier Perez de Cuellar determined that 441 documents were separated from one group and filed in another before the International War Crimes Commission turned the data over

Of the remaining 24, five were sent by the commission to a gov-

proceedings tion and were not returned, seven had dual numbers, and three against numbers were unused and one was withdrawn as redundant, leaving the whereabouts of eight magazine undetermined, according to a re-"I shall continue to attempt to

VIENNA (R) - President Kurt Waldheim is to seek criminal prosecution of an Austrian magazine over a story that he accepted gold to save Yugoslav civilians from execution in World War II, a presidential spokesman said on

In a statement carried by the Austrian Press Agency, the spokesman said:

"The special issue of the periodical Wiener just published is a pamphlet with the obvious and deliberate intention of inciting feelings against the Austrian head of state by unqualified and untrue allegations.

"In view of the publication and the recognisable intention of defamation, the president has decided to empower the Vienna public prosecutor to begin criminal proceedings."

The magazine, which appeared on newstands on Thursday, carried an article quoting a 64-yearold Yugoslav-born American. Miodrag Cedic, as saving his uncle and father bribed Dr. Waldheim to save Yugoslavs from German reprisals in the war.

Summit seen as falling short in U.S., historic in Moscow

Communist Warsaw Pact allies. Berlin they said:

The Washington Post said U.S. producing agreements on human rights, regional disputes and cutting strategic arms.

The Post said in an editorial: 'The third Reagan-Gorbachev summit ended in something less undermining Western security. than total cheers and hurrahs. That's probably just as well.

"...It seems that contacts between the leaders had been extended, issues clarified and impetus given to a search for ways to ease the real differences between the two countries. That's

In Moscow, the Soviet Communist Party newspaper Pravda said the signing at the Washington summit of the pact to abolish intermediate-range weapons "would be enough for the meeting to enter the annals of history as the first real step on the road to nuclear disarmament.'

Pravda said the summit had sealed a qualitative shift in East-West relations.

Warsaw Pact leaders, briefed on the summit by Mr. Gorbachev, issued a press statement attacking some NATO states for seeking new weapons to replace medium-range nuclear missiles.

LONDON (R) - The outcome They: said the summit was a of the U.S.-Soviet summit was meeting of historic proportions hailed as historic in Moscow, seen and reaffirmed their willingness as falling short of tangible agree- to cut conventional forces "to aments in the United States, and level needed for defence." But . La Stampa said the summit was a given a guarded welcome by the after a two-hour meeting in East

"Concern was expressed over President Ronald Reagan and the intentions of some NATO Kremlin leader Mikhail Gor- circles to 'compensate' for the . bachev achieved enough even withdrawal of (INF missiles) by though their talks fell short of expanding or modernising other weapons categories."

In London, the Times under the headline "post-summit pitfalls" carried an analysis about. the prospects of arms control

The Guardian urged Washington's NATO allies to act and stick together. It said in an editorial: 'If Western Europe feels a bit'

of a draught it may well be from the wings of chickens coming home to roost: "Too" much reliance on nuclear weapons, neglect of conventional forces, overdependence on America, inability to put together a credible European conventional deter-

The Warsaw newspaper Zycie Warszawy saw no reason to be over-enthusiastic or "imagine that we have entered a period of idyll in East-West relations. The difficulties to surmount are tremendous."

West German newspapers said was now vital to establish priorities for future arms control negotiations and look at other issues, such as human rights. The conservative Frankfurter Allgemeine declared: "Arms

control cannot remain the core and almost exclusive content of East-West relations." In Italy, the Turin newspaper

personal success for Mr. Gorbachev but he "has not eliminated the deep-rooted fears America has of the Soviet Union.' Portugal's Prime Minister

Anibal Cavaco Silva said his country was satisfied with the missile agreement but added: "The 'accord in itself is not enough and the (NATO) allies must insist on a cut in conventional forces and inter-continental missiles as well as bringing up the question of human rights."

In the Middle East, reaction to othe summit was generally muted. with some regional commentators assessing it fruitless at best and harmful at worst to the Arab cause.

Iranjan President Ali Khamenei said the two leaders were not genuinely interested in ending the Gulf war. Tehran Radio reported.

In Peking, the New China News Agency said the U.S. and Soviet leaders had "failed to meet the expectations of the world peoples" on regional issues such as Afghanistan.

Weinberger unmoved by Gorbachev visit

NEW YORK (R) - Caspar Weinberger, who resigned recently as U.S. defence secretary, was quoted on Saturday as saying he was not impressed by Soviet leader Mikhail Gorbachev during

his visit to Washington. "I think it is awfully early to conclude that this is a warm, trusting man who is not going to do anything wrong. Weinberger said in an interview with the New York Times. "He's got claws and every once in a while those claws come out." Mr. Weinberger, who had been

one of Mr. Reagan's key con-

servative advisers, said he con-

tinued to believe that Moscow

seeks world domination. "The president knows exactly what the 'evil empire' is capable of doing," Mr. Weinberger said, using a phrase that Mr. Reagan applied to the Soviet Union when

he took office in 1981. "They're acquiring an awfully large number of overseas bases, overfight rights, places to dock and repair their ships that don't sound very much to me like staying within their own borders," he added.

While, Mr. Weinberger, who stepped down as defence secretary because his wife is ill, approved of the intermediate range nuclear arms treaty signed by Mr. Reagan and Mr. Gorbachev during their summit this week, he indicated he still had reservations about the new Soviet

leader. "I don't think that just because he wears Gucci shoes and smiles occasionally ... that the Soviet Union has changed its basic doctrines," Mr. Weinberger said.

Belgians bite into summit effigies

ANTWERP, Belgium (R) — Belgians are biting into souvenirs of the Washington summit - marzipan and chocolate, effigies of President Reagan and Kremlin leader Gorbachev complete with a Christmas tree and a missile. Hans Burie, a 47-year-old confectioner, has sold about 100 of his \$36 creations to mark the summit which ended on Thursday. One went to the U.S. consul in this northern port city and another was delivered to the Soviet consula regular customer, on Friday. Burie also offers the two heads as individual items but Reagan is more expensive. "It has more mazipan...his nose is much bigger," he told Reuters.

More time left on 'doomsday clock'

CHICAGO (R) — The keepers of a "doomsday clock" said on Friday they will roll its hands back from a position signalling the brink of nuclear holocaust partly because of improved chances for world peace from this week's summit. The Bulletin of the Atomic Scientists, which has kept the clock at its offices on the University of Chicago campus since 1947, said it will move the hands back from their current position, three minutes to midnight, next week. They cited the summit between President Reagan and Soviet leader Mikhail Gorbachev as a factor in their decision. The new position of the hands will be announced on Dec. 17. The hands of the clock were last moved in January 1984, when they inched to their present position closer to the hour symbolising holocaust following the Soviet Union's downing of a Korean Air Lines passenger jet and increased U.S. military activity in the Caribbean. The clock has been as close as two minutes to midnight, in 1953 after the United States and the Soviet Union conducted thermonuclear tests. Its current position is the second closet since the time-keeping started.

Wedding relives India's ancient splendour

GWALIOR, India (R) — A fairy-tale wedding in this once princely city, replete with Maharajahs, diamonds and gun salutes, recaptured the splendour of India's ancient Moghul rulers. About 50,000 people travelled 400 years back in time to a sumptuous, feudal era to witness the marriage of the daughter of the Maharajah of Gwalior and the son of the Maharajah of Kashmir. Princes and nawabs, bedecked in heirloom jewels, filed past caparisoned elephants and silver horse-carriages at the white, colonnaded Jai Vilas Palace rising above the central city of Gwalior. At precisely 7.54 p.m. (1424 GMT) — a time ordained by palace astrologers — the 23-year-old prince of Kashmir wed his 20-year-old bride as Hindu priests chanted mantras. The guests included King Birendra and Queen Aishwarya of Nepal. They are related by marriage to the bride's father, Madhavrao Scindia, who is also Prime Minister Rajiv Gandhi's railways minister. The groom's father served in the late Prime Minister Indira Gandhi's cabinet. Also in attendance were 30 former rulers of parts of India, many tracing their lineage to the 16th century when much of north India was in Muslim Moghul empire. Its rulers, famed for their opulence, built the Taj Mahal. The maharajahs, rajahs, nizams, nawabs and assorted minor rulers were allowed to indulge their ostentatious habits under British rule but lost their thrones after independence in 1947.

Sting to perform in Argentina

BUENOS AIRES (R) — British rock star Sting has said he would join a worldwide tour next year to benefit Amnesty. International human rights organisation because "my second function is to inform." "Rock is a language that people understand on every continent, and I am very happy to be a part of that movement," Sting told a news conference in Buenos Aires. Sting, formerly with the group the Police, said in Brazil on Wednesday that he and other stars including Peter Gabriel would launch a worldwide tour to help Amnesty International on the 40th anniversary of the Universal Declaration of Human Rights. Officials of the Londonbased Amnesty said the tour would begin in August 1988 and a full list of performers and venues would be released next year. "My first function is to entertain, but my second function is to inform," said Sting, wearing a bone necklace that he said a community of Xingu Indians had given to him in the Amazon basin during his recent tour of Brazil.

U.K. police search for 2 prisoners

LONDON (R) — Two prisoners whisked to freedom from a maximum security jail by a helicopter evaded a police dragnet in central England on Friday. Convicted murderer Sydney Draper and John Kendall, serving eight years for burglary and conspiracy, scrambled aboard a hijacked helicopter as it touched down on the sports field of Gartree Prison in the county of Leicestershire. Home Secretary Douglas Hurd ordered an inquiry into Thursday's escape, the first time the James Bond-style method has been used for a jail breakout in Britain. A senior officer warned that the pair were extremely dangerous and probably armed. Hundreds of police officers took part in the hunt. Police throughout Britain have been alerted and photographs of the two prisoners circulated. The helicopter was hijacked from a nearby airport by a man claiming to want to photograph a local golf course and was flown to Gartree where inmates were exercising on the field. The two escapees and their accomplice left the pilot handcuffed to the helicopter when they abandoned it in a nearby village and made off in a stolen van. They later forced a woman motorist off the road and seized her car. She was not injured.

Erotic art sale draws collectors

LONDON (R) — An ivory phallus, a Tibetan bronze of a love-making couple and an Indian miniature of a prince and his consort have gone under the hammer in London at an auction devoted exclusively to erotic art. Collectors, watched by curious on-lookers, paid a total of just over £26,000 (\$46,800) for the 293 pieces of erotica in Bonhams' West London auction room, which held its first such sale last year. The highest price paid was £2,500 (\$4,500) for a 19th century empire gold and tortoiseshell snuff box. with a secret compartment showing a group of men sampling the delights of a brothel. "We're just feeling our way with this sort of sale." said auctioneer Eric Knowles. "We're careful to keep it in the best possible taste — we wouldn't consider selling anything showing paedophilia, bestiality or violence to women, for instance." About 80 people turned out for the sale of erotica which included Japanese prints, enamel, boxes, books, drawings, paintings and sculpture from the 19th and early 20th centuries. "I collect erotica because I like having nice things around me," said one elegantly dressed front-seat buyer who snapped up several carvings. A painted pine chest showing scenes from the ancient Indian sex guide Kama Sutra fetched £450 (\$810) — less than expected — but a carved ivory phallus snuff box sold for twice its valued price at £380 (\$680).

Arrest warrant issued for rock singer

LOS ANGELES (R) — An arrest warrant was issued for rock singer Sly Stone after he failed to appear in court to answer charges he had not paid \$2,500 in child support. Stone, whose real name is Sylvester Stewart, is due to appear in a Los Angeles municipal court for arraignment on a charge of possessing cocaine. The 43-year-old singer was free on bail of \$10,000 pending his arraignment on two counts of refusing to support his former wife and 14-year-old son,
